

Emanuele Fabbiani

ENGINEER · RESEARCHER · FOUNDER

✉ emanuele.fabbiani@gmail.com | 📷 donlelef | 🌐 emanuelefabbiani

Professional Profile

AI engineer, researcher, and founder who bootstrapped xstream to **25 employees**, **EUR 2M+ in annual revenue**, and **EUR 500K in profit**; built a **9-person AI team**; and directed **15+ enterprise AI projects**. Published **9 peer-reviewed papers with 175+ citations** and delivered **50+ talks**, combining production ML with company building, enterprise delivery, research, and teaching.

Skills

AI/ML	Machine learning, deep learning, time-series forecasting, GenAI, RAG, ML system design
Technologies	Python, PyTorch, scikit-learn, XGBoost, pandas, Polars, Prefect, Streamlit, GCP, Azure, Databricks
Leadership	Entrepreneurship, AI strategy, enterprise delivery, team building, project management, teaching

Experience

xstream

CO-FOUNDER, CEO, AND HEAD OF AI

Milan, Italy

2018–Present

- Co-founded and bootstrapped the company to **25 employees**, **EUR 2M+ in annual revenue**, and **EUR 500K in profit**.
- Appointed CEO in 2023, doubled revenue in two years, and led the company through its 2025 acquisition by TeamSystem.
- Built and led a **9-person AI team** across Italy and Argentina, recruiting three PhDs and two university professors.
- Launched the GenAI Adoption practice, generating **EUR 250K in revenue within 15 months** at a **75% profit margin**.
- Directed 15+ enterprise AI projects from presales and team formation through deployment, executive communication, and operational adoption.

Financial index forecasting

MACHINE LEARNING, TIME-SERIES FORECASTING, PYTHON, XGBOOST, SHAP, AZURE, DATABRICKS

Led five data scientists in designing XGBoost models to forecast financial indexes from macroeconomic variables, using SHAP for model interpretability. Implemented ingestion, preprocessing, training, and prediction on Azure Databricks; selected models outperformed the market and supported investment decisions.

Power load forecasting

MACHINE LEARNING, TIME-SERIES FORECASTING, PYTHON, SCIKIT-LEARN, PROJECT MANAGEMENT

Led four data scientists and data engineers from presales to deployment for Plenitude. Delivered an average MAPE **25% lower** than the previous production system, contributing to **EUR 3M+ lower imbalance penalties**.

AskHR

GENAI, RAG, LANGCHAIN, OPENAI, PYTHON, QDRANT

Led four engineers from presales through deployment of a RAG assistant for Nexi's HR policies. The solution was adopted by all Italian employees and reduced HR ticket volume by **30% within two months**.

Sales forecasting

MACHINE LEARNING, TIME-SERIES FORECASTING, XGBOOST, SHAP, PREFECT, STREAMLIT, GCP CLOUD RUN

Led a **4-person team** on the Lavazza sales-forecasting project, building XGBoost models with SHAP interpretability that outperformed the prior tools in **5 out of 5 countries**. Delivered the training pipeline in Prefect and a Streamlit interaction layer deployed on GCP Cloud Run.

Credit rating model

CREDIT RISK, XGBOOST, MODEL VALIDATION, PRODUCTION DELIVERY

Led four data scientists and two analysts and subject-matter experts, reporting directly to the CEO of CF+ Bank, to build an XGBoost credit rating model. In backtesting, it delivered **35% lower non-performing exposure** than the existing model, **equivalent to EUR 5M**, and reached production **two months ahead of schedule**.

Reaidy

CO-FOUNDER AND CEO

Milan, Italy

2024–2025

- Co-founded a GenAI content platform and led product validation, prototyping, initial demos, and enterprise delivery.
- Secured the first clients and generated **EUR 150K in first-year revenue** before the company's 2025 acquisition by TeamSystem.

Avvale

DATA SCIENTIST

Milan, Italy and Madrid, Spain

2015–2017

- Delivered data science projects part-time while completing an MSc; expanded the Eni account team from 2 to 8 as contract revenue grew **5x**.

Statwolf

DATA SCIENTIST

Dublin, Ireland and Pavia, Italy

2015–2017

- Started as a summer intern in Dublin and continued as a part-time remote contributor. Analyzed the effect of weather on semiconductor manufacturing; the findings earned client recognition and follow-up contracts.

Teaching and Academic Service

Catholic University of Milan

PROFESSOR OF PRACTICAL AI, MSc IN MANAGEMENT & INNOVATION

Milan, Italy

2025–Present

- Teaches the Practical AI course; received **7.4/9 student satisfaction** in the first year and **8.4/9** in the second year.

Catholic University of Milan

ACADEMIC BOARD MEMBER, ECONOMICS AND STATISTICS MASTER'S PROGRAMS

Milan, Italy

2024–Present

- Serves on the academic board for the Economics and Statistics master's programs.

University of Pavia

LECTURER AND COURSE DESIGNER

Pavia, Italy

- Proposed, designed, and taught three editions of Python for Data Science and two of Python for Data Analytics; all five sold out and received **100% positive or very positive feedback**.
- Taught Machine Learning in the MSc in Statistical Genomics.

European universities and colleges

GUEST LECTURER

- Lectured at the Polytechnic University of Milan, Polytechnic University of Wroclaw, EPFL, HSLU, and Almo Collegio Borromeo.

Education

University of Pavia and EPFL

PHD IN APPLIED MACHINE LEARNING

Italy and Switzerland

2018–2021

- Built natural gas forecasting models adopted by A2A and introduced a Bayesian power-grid identification method later extended by ETH and UC Berkeley researchers.
- Published **9 peer-reviewed papers with 175+ citations** while building xstream.

University of Pavia

MSc IN EMBEDDED AND CONTROL SYSTEMS

Pavia, Italy

2015–2017

- Graduated **110/110 cum laude**; ranked in the faculty's **top 1%**.

University of Pavia

BSc IN COMPUTER ENGINEERING

Pavia, Italy

2012–2015

- Graduated **110/110 cum laude**; ranked in the faculty's **top 1%**.

Entrepreneurship and Investing

PFA

PARTNER AND CTO

Italy
2026–Present

- Technology leader at a company providing wellbeing and psychological services to businesses and public organizations.

Pillar

ANGEL INVESTOR

Italy
2025–2026

- Achieved a **3.3x return in nine months**.

GoMutuo

PRE-SEED INVESTOR

Italy
2026–Present

Asimov AI

ADVISOR

Italy
2025–Present

- Advises an AI-native platform for analyzing and monitoring Italian legislation, including complex legislative measures and amendment packages.

Public Speaking and Service

European AI and Python community

SPEAKER AND TRACK ORGANIZER

2022–Present

- Delivered **50+ talks** at PyData Paris, Berlin, and Milan; PyCon Italy and Germany; AMLD Lausanne; ODSC London; WeAreDevelopers Berlin; Codemotion; Swiss Python Summit; and other European conferences.
- Organized and hosted conference tracks and workshops at AMLD Lausanne since 2022.

Lead the Future

MENTOR

- Selected to mentor bachelor's and master's students interested in STEM careers.

Selected Podcasts

AI Compass

CO-HOST

- Hosted a podcast on applied AI and the people building it during his time at xstream.

Technology and entrepreneurship podcasts

GUEST

-  **A Journey Through Academia and Business** - Data Driven People.
-  **How to Build a Company Without External Funding** - Silicon Valley Fellowship.
-  **Using AI to Forecast the Future** - ProfessionAI.

Selected Talks

-  **ML for Energy: Why Academic Models Fail in the Real World** - AMLD Lausanne.
-  **Marketing Media Mix Models with Python & PyMC: A Case Study** - PyCon DE & PyData Berlin.
-  **Advanced Polars: Lazy Loading and Streaming Mode** - PyData Paris.
-  **System Design for the GenAI Era** - AI Heroes.
-  **Langfuse, OpenLIT, and Phoenix: Observability for the GenAI Era** - PyCon Italy.
-  **From SHAP to EBM: Explain Your Gradient Boosting Models in Python** - Swiss Python Summit.
-  **Inside the Mind of an LLM** - Codemotion.
-  **The Hitchhiker's Guide to Asyncio** - PyCon Italy.
